

# Bruno Indoor Stair Lifts - Enhance Accessibility on Your Stairs

Bruno indoor stair lifts are available in various designs to improve accessibility on different types of stairs such as straight, curved, and those with multiple landings. Here we highlight some popular models that are recognized for their safety and efficiency.

## Elan Indoor Straight - SRE 3000

- Designed for straight indoor staircases
- Load capacity: 300 lbs (136 kg)
- Offset swivel seat makes getting on/off easy
- A compact, flip-up design
- A blend of unsurpassed reliability, high-quality standard functionality, and ease-of-use design
- Rack and pinion drive ensures a smooth, quiet ride
- Two wireless call/send options allow the unit to be controlled remotely

## Elite Indoor Straight - SRE 2010

- Designed to improve accessibility on straight stairs
- Elite Straight stairlift capacity: 400 lbs (188 kg)
- Continuous charge strips along rail power unit wherever it stops
- Easily installed and requires no modification to your staircase
- Exceptional engineering, innovative design and smooth, and stable ride
- Safety options - obstruction sensors and seat belt
- Seat swivel switch allows operation only when the chair is in center position

## Indoor Curved Stairlift - CRE 2110L

- Designed to improve accessibility on curved stair cases
- A total load capacity of 400 lbs
- Obstruction sensors and safety belt
- Two wireless remote controls
- Adjustable footrest height for maximum comfort
- Plush, generous-size seat with multiple height adjustments
- Armrest rocker switch for easy operation
- A smooth and quiet ride.
